The laboratory facilities currently consist of the following five testing fields: soil testing, rock testing, aggregate testing, geosynthetics testing, and field testing. In addition to their regular laboratory testing services to the industry, a number of faculty and students regularly used the laboratory facilities and equipment to carry out experiments related to their teaching and research work. The majority of the testing devices are over four decades old and are getting outdated. Some of them were damaged due to the devastating flooding event in 2011. Hence, there is a strong need to upgrade the laboratory facilities to continue pursuing the mission. Goal: To provide support for relevant teaching/research activities at an international level and to provide reliable and professional laboratory testing services to the industry. What is needed: The 1st phase budget for allocating the new equipment is 7,000,000 Baht. Direct Shear Test Triaxial Test Ring Shear Test Automatic Oedometer Test Universal Testing Machine Chlorimeter Xenon Arc Benefits to the Donors: (1) 200% tax allowance deduction concession (2) Participate in developing state-of-the-art laboratory facilities necessary to support laboratory testing services to the industry. (3) Enhance our student's skills with modern laboratory equipment to prepare them to be career-ready. Contact: Office of Advancement and Alumni Affairs (OAAA) Asian Institute of Technology Tel: +66 2 524 6318 Email: [lucena@ait.asia](mailto:lucena@ait.asia) For more information: Geotechnical Laboratory Asian Institute of Technology Tel: +66 2 524 5505 Email: [gtelab@ait.asia](mailto:gtelab@ait.asia) Donation Pledge for AIT Reserve Fund Name of Donor (required) Address (required) City (required) State or Province (required) Zipcode (required) Country (required) Email (required) Telephone (required) Thai Tax ID (In case you do not have Thai Tax ID, please type "000") Yes, I hereby pledge to make a contribution to support AIT!
