My staff and I feel honored to work with all our donors, be it alumni, private companies, industry, foundations and other institutions who have provided various funding that has been instrumental in transforming AIT under the overarching umbrella of “Social Impact with Innovation”. My office works closely with faculty and staff in consultation with the President of AIT, Prof. Kazuo Yamamoto in various initiative campaigns that we have embarked on to help AIT both in terms of scholarships and fundraising campaigns to improve our institute's facilities. All stakeholders of AIT are working hard towards realizing the vision of our President in establishing AIT as a globally recognized, innovative, relevant, and entrepreneurial institution. Since our students are one of the main stakeholders of AIT, it is important that their brief stay at AIT is academically challenging as well as memorable as they progress on their careers. This has led us to have a strong alumni network spanning over 100+ countries who are more than willing to give back to their alma mater and thereby staying connected with AIT. Institute Fundraising Campaigns presently launched includes academic scholarships, student exchange scholarships, renovating student dormitories and school laboratory facilities etc, through the generous donations of our benefactors that includes individual Alumni, Alumni National Chapters and Private Corporates.
